PRETTY VAUDEVILLE ACT

A delightful attraction is added to the usual excellent picture program at the Butler theater. It is a singing and dancing act by Annabel Happel, California's greatest child artist, who is known as "the dancing doll." With her appears Miss Goldfield, a graceful little skirt dancer. They will be seen at the theater tonight and tomorrow.

MILLION IN COUNTERFEIT

(By Associated Press.) NEW YORK, August 17.—A conspiracy to manufacture and circulate \$1,000,000 of counterfeit silver certificates and United States treasury notes was frustrated here today by William J. Flynn, chief of the secret service. Eight arrests were made, after raids on a house at Grant City, Staten Island, and one in East Ninth street, this city. A complete counterfeit outfit was found, consisting of photographic apparatus, lithographic presses, electrotyping, etching tools, paper and colored ink. An illicit wine and liquor blending plant was also unearthed.

According to the secret service men, the counterfeiters apparently were well supplied with money, their outfit alone having cost upward of \$2000. The scheme, the government agents said they were informed, was to manufacture the \$1,000,000 in spurious bills, then destroy the plant before attempting to dispose of the bogus money. Seventy photographic negatives of genuine bills already had been made and the impressions transferred to gelatine and wax plates. Some of these, after having been electrotyped, had been etched. Pieces of silk and human hair also were used in the process of making the counterfeits.

HOMES OF PICKETS ATTACHED BY BOSSES

(By Associated Press.) BRIDGEPORT, Conn., August 17.—Attachments were placed today on about a dozen houses of striking maulers by manufacturers in an action alleging \$50,000 damages by reason of strike employees picketing plants. The suit is based on the decision in the Danbury Hatters case.

GOING TO SPEND VACATION AMONG RESORTS OF UTAH

TEN BILLIONS KEPT IN BANKS

STATEMENT OF THE CONDITION OF NATIONAL BANKS ON LAST DAY OF JUNE

(By Associated Press.) WASHINGTON, August 17.—Resources of the national banks of the United States on June 30 amounted to \$13,927,000,000, an increase over those shown in reports of June, 1915, of about \$213,000,000 and a decrease of about \$269,000,000 from May 1 last. Figures made public today by Comptroller Williams show total deposits on June 30 of \$10,856,000,000; loans and discounts of \$7,679,000,000; circulation of \$676,000,000, and reserves of \$2,074,000,000.

INTERESTING CONDITIONS DEVELOPING IN THE BUCKEYE BELMONT CROSSCUT

The long crosscut to the northeast from the Buckeye Belmont shaft on the 1200 foot level is now out nearly 1500 feet from the shaft and is beginning to show some interesting conditions which indicate a future for the mine. Little has been said about this drive, not wishing to excite hopes that might not be realized, but the following facts were given to the Bonanza by Manager Balliet this morning:

"We first struck stringers of quartz ore just under the cap rock at the 800 foot point in the shaft, and here we encountered a little dripping water. On the 900 foot level we run a crosscut slightly east of north. Here we encountered a ledge of low grade ore that was about nine feet wide. With a strike south of east and a dip to the northeast we again encountered dripping water on the footwall of the ledge at this point. After ascertaining the strike and dip of the vein we run an upraise from the 1200 level and again encountered the vein about 400 feet northeast of where we first struck it. Again we found dripping water in the ledge, which drained the 800 foot level. Then we turned more easterly, driving a long drift toward the point where we thought the vein would be found on the 1200 foot level, without an upraise. This week we have encountered the water on the footwall, which seems to indicate that the ledge is not far ahead. If this water proves the forerunner of the ledge at this point it will prove the ledge to be at least 1000 feet long on its strike and continuous between the 900 and 1200. The value of the ore in the vein on the 900 and in the head of the upraise was from \$2 to \$6 per ton, but what the ledge value will be 1000 feet east and 200 to 300 feet deeper has not been determined.

"Directions were received from the eastern offices of the company to increase the speed in this direction, if possible, and during the last 29 days the face has been advanced at the rate of 4 1/2 feet a shift. It is believed that the best values exist in this direction and no effort will be spared to reach them as quickly as possible.

Mr. W. E. Dittenhafer, the auditor for the company, has just made his annual inspection of the business and departed more satisfied than ever with the outlook. Before leaving he stated that he thought the business would be so great in another year that he would have to spend most of his time here. He likes Tonopah and indicated that he would like to have business develop enough to justify his moving here with his family.

HEALTH OF GUARDS ON BORDER IS GOOD

(By Associated Press.) WASHINGTON, August 17.—Eight deaths from sickness among the regulars and guardsmen on the border during the week ending August 12 were disclosed by statistics published. Medical officers regard this as an exceptionally low death rate among 140,000 men.

FINED FOR SELLING SAUSAGE WITHOUT MEAT CONTENTS

(By Associated Press.) BERLIN, August 17.—A merchant in Hamburg has been fined 2000 marks for one of the most remarkable offenses yet recorded against the pure food laws. A "liver sausage" sold by him for two marks and twenty pfennigs the pound was found on analysis to contain macerated rubber, finely ground hair and gelatine. There was neither liver nor other flesh nor fats in the sausage.

Don'ts For Poets.

Arthur Guiterman in a recent interview gave a list of negative commandments for would be poets. "Don't think of yourself as a poet and dress the part," he says. "Don't frequent exclusively the company of writers. Don't complain of lack of appreciation. (In the long run no really good published work can escape appreciation.) Don't speak of poetic license or believe that there is any such thing. Don't use 'er' for 'ever,' 'er' for 'over,' 'when as' or 'what time' for 'when' or any of the 'poetical' commonplaces of the past. Don't say 'did go' for 'went,' even if you need an extra syllable. Don't don't write hymns to the great god Pan. He is dead; let him rest in peace! Don't write what everybody else is writing."—Kansas City Star.

(By Associated Press.) CHICAGO, August 17.—The president will make numerous speeches before civic organizations in response to invitations during the progress of the campaign, although he will not make a campaign tour of the country, according to announcement.

MARKETING PRODUCTS UNDER ADVISEMENT

(By Associated Press.) CHICAGO, August 17.—An economy campaign of nation wide extent will be started by American farmers at the fourth National Conference on Marketing and Farm Credits, called today to meet in Chicago on December 4-9. The campaign will begin with practical plans for checking enormous wastages in marketing farm products. This annual wastage is of billion dollar magnitude, according to a statement of general committee. "The root of it lies in defective local organization of farmers," says Secretary Charles W. Holman, of Madison, Wis., "and the delegations will work out machinery for getting the local communities more tightly organized."

Prior to the conference surveys will be made, under the direction of the committee, that will show the movement of crops such as livestock, grain, hay, cotton and perishable products. The whole milk situation in its relation to city distribution problems will come in for a considerable share of attention.

To bring out more vigorously the evils in the "present wasteful system of handling farm products," the conference will conduct special hearings open to the public. Local and general conditions will be taken up by competent witnesses and remedies will be outlined.

The Magic Shave.

The man with a retreating chin may grow a beard and hide it, or he may frankly shave the exiguous offender, careless whether it recedes or not. The utmost candor may be seen in a shaven chin, and of all the manly, valorous qualities that of candor, downright, may be ranked first. The weakness attributed to a retreating chin may be canceled by shaving it. The man who accepts his face as nature gave it to him, braving it to the world without conceit or decoration, must be classed among those with the manly quality. Cartoonists and novelists have waived the weak chin to the limbo of the inefficient and inept. Let the man without the masterful jaw take heart; he has but to shave to show the qualities desired.—Atlantic.

Too Sensitive.

It was the first night after the show. The leading woman's mother was downcast. "What's the trouble, dear?" asked the leading woman in surprise. "I made a brilliant hit tonight." The old lady was surprised. "Did you, Sophie? I heard the audience shouting 'Play right! Play right!' and I thought you had failed." And the leading woman laughed in amusement. "Why, my dear, they were shouting 'Play right! Play right!'"—Chicago Tribune.

Oil Wells in the Ocean.

One of the most novel and interesting sights along the California coast, especially to tourists, are the oil wells in the ocean at Summerfield, southern Santa Barbara county. Long wharfs carry the scores of derricks which mark the location of these unique wells. The field is small, covering about 125 acres.—Argonaut.
